

Prices of Wheat Higher as British Market Advances

Greek Government Takes 1,500,000 Bushels; Covering for Week End; Shows 5/8 to 1/4 Gain

CHICAGO, Oct. 7.—The wheat market today was fairly active and prices were firmer, closing at the best of the day, with net gains of 5/8 to 1/4. The Liverpool market was considerably higher than expected, and reflected a feeling of uneasiness abroad, both over the political situation in the Near East and the question of supplies owing to the light offers from America.

The Greek government took about 1,500,000 bushels of wheat on October 7, covering for the week end. The buying helped to stimulate values and there was more or less covering for the week end. The market was firm, and prices were firmer, closing with net gains of 5/8 to 1/4.

Business Troubles

Petitions in bankruptcy

The following petitions in bankruptcy were filed yesterday in the United States District Court:

REPUBLIC DOLL & TOY CO., INC.—Involuntary; 152 West 35th st. Assets, \$10,000; liabilities, \$10,000.

An Injustice To Your Customer

If there is an advantage in your customer closing his Accounts Receivable into Notes or Acceptances and then turning them into cash at his Bank, as is advocated in credit circles, it is not to the advantage of the customer. It is to the advantage of the bank. It is to the disadvantage of the customer. It is to the advantage of the bank. It is to the disadvantage of the customer. It is to the advantage of the bank.

An Acceptance was an Open Account and the Open Account was merchandise sold on credit instead of for cash. What possible difference could there be to anyone interested, whether the merchandise had been first sold for cash, or whether the Account representing the merchandise or the Acceptance representing the Account, was sold for cash? All are alike except as to form and all represent merchandise on the ledger instead of in stock.
